

LE USA®

DOMESTIC FASTENING SOLUTIONS WITH GLOBAL REACH

LE USA®: BUILDING FOR THE FUTURE

What do many of America's great skylines, stadiums, airports, bridges and more all have in common? Aside from their inspiring architecture, they are secured with **LE USA®** fasteners currently produced in Frankfort, Indiana.

Centrally located in the American heartland, **Fontana Fasteners, Inc.** produces **LE USA®** fasteners and provides customers with high quality cold-formed fasteners produced from steel melted and rolled exclusively in the USA. In fact, **Fontana Fasteners Inc.** is the only North American full-service manufacturer and provider of structural bolts, nuts, washers and TC assemblies.

FEATURES

- ▶ High quality cold-formed fasteners produced from steel melted and rolled exclusively in the USA
